Technical Bulletin: [Single Diamond Net Chain](#)

Description of chain:

Round Link Single Diamond configuration, with or without studs. Reliable traction chain for Front End Loaders, Tractors, Graders or smaller Skidders.

Advantages:

- Superior traction on any terrain.
- Open chain net provides less road damage.
- Very economical but reliable all-terrain traction chain.
- Light weight for easier installation.
- Boron Manganese Steel ensures quality and maximum performance of all components.
- Special heat treatment provides exceptional strength and wear properties.

Material sizes:

- Tag chain size:
9/16" (14 mm)
5/8" (16 mm)
3/4" (20 mm)

Stud sizes:

- | | (D) | (H) |
|--------------|------------|-----|
| * Stud size: | | |
| | 16 x 26 mm | |
| | 18 x 26 mm | |
| | 23 x 31 mm | |

Material:

- High quality Boron Manganese Steel

Hardness and Strength: (values refer to cross chain)

- Surface Hardness: 62.0 HRC
- Core Hardness: 44.0 HRC
- Case Hardening Depth: 0.70 - 0.90 mm
- Strength: 120 KN (9/16" welded ring)
